

MAKING **EFFICIENCY** THE NEW STANDARD

Milcor's EE Series Roof Access Hatch

- Achieves LEED® standards for recycled content
- Environmentally friendly Polyisocyanurate insulation in both Curb and Cover
- Available in Galvanized Steel with Cool White, Water Based Enamel Paint
- Also available in Aluminum
- Cover opens easily to 90° with torsion spring and automatic hold-open arms to assist operation and keep cover securely open.
- Heavy EPDM mechanically-applied weather seal provides a barrier to weather and drafts.
- Available in all Milcor standard sizes or in custom sizes upon request.

- **Material:** Cover and Curb available in 11 gauge Aluminum as well as 18 gauge Galvanized Steel.
- **Cover:** 2" Polyisocyanurate insulation, fully welded cover, and internally reinforced for 40 PSF live load
- **Curb:** 12" standard height with counter flashing, 2" Polyisocyanurate insulation, fully welded at corners, and 3 ½" mounting flange with pre-punched mounting holes.
- **Gasket:** Extruded EPDM rubber gasket mechanically adhered to cover
